

SALT FED POOLS– PROCHEM AGREEMENT

THIS AGREEMENT entitles me to exclusive weekly chemical treatment by Little Richard's Pools & Spas, Inc. for my swimming pool and/or spa. This agreement sets out the respective rights and obligations of each party.

ProChem. Once the salt level is established and up to 3500 ppm, ProChem will provide chemicals and technicians to properly balance chlorine, pH, alkalinity, and conditioner levels on a weekly basis. We will provide our pool owners with D.E. filter powder upon request at market cost. Any pool requiring over **20 pounds** of conditioner will have the option receive more conditioner at market cost or end the contract agreement. ProChem will add the monthly Salt Magic product required to keep salt fed pools balanced. Initial salt and any additional salt needed during the season will be supplied and billed at cost. Unless pumped out or backwashed out, salt fed pools should not require weekly salt treatments to maintain chlorine levels. However, it will be necessary to ensure pH, alkalinity and conditioner levels are balanced. **Salt generated pools only produce chlorine...not all the other necessary chemicals to keep pools safe.** Chemicals to fight water borne biotic diseases and remove disease causing organisms such as e-coli will be provided. ProChem will charge a \$25.00 return trip fee, if pool is not accessible during initial trip. Please have gate unlocked, and dangerous dogs put up on your day! ProChem will provide a blue yard flag indicating the pool was treated EACH visit. You may discard the flags, or return them to us at season's end. ProChem technicians are trained in water chemistry, and will not fix motors, pumps, filters, heaters, covers, liners, etc. while on site. *If service work is required, a separate appointment can be made through the office.* PRICES ARE SUBJECT TO CHANGE DUE TO THE VOLATILE EVERCHANGING CHEMICAL & FUEL MARKET. **If prices increase, you will be notified in writing, with an option to end agreement, or be invoiced for additional specified costs.** ProChem has the right to refuse service at our discretion.

The Homeowner. The Homeowner will follow the manufacturer's recommendations for proper filtration time. Sand filters require 24 hour daily filtration. D.E. & cartridge filters require 12-18 hours per day. The Homeowner will clean and backwash the filter weekly, and keep pool clean. The Homeowner will not add chemicals to pool or spa unless directed by technician to do so. All chemical treatment will be done by ProChem technicians. The Homeowner will provide the ProChem technician safe access to pool on the designated service day. If the Homeowner has an automatic pool cover, it will be open the day of service. Failure to provide access to pool will obligate the homeowner for additional costs. The Homeowner will call Little Richard's Pools & Spas, Inc. at the number below or communicate via e-mail, fax or regular mail if they wish to extend treatment of their pool or spa outside of the dates set out in this agreement.

The Homeowner will pay all charges owed under this agreement either IN FULL in advance, or MONTHLY in advance. The Homeowner will be responsible for a late fee for past due accounts. The Homeowner will keep the pool or spa in a condition that it will not leak. If the Homeowner fails to keep the pool from leaking or otherwise repair the pumps, motors, filters, heaters, covers, liners, etc, then at the option of ProChem, this agreement shall be at an end. If agreement ends, the amount due on the account will be paid in full at this time. The terms of the payment plan are incorporated by reference.
